

Dynamic UI Mockups Report

Team member:

Ao Liu, Shengbo Lou, Siyu Peng, Yuchen Lu, Wei Xie, Weijie Shi

Components:

1. Activity

This folder included components for activity page. The folder included three files.

- activity.js
renders the activity's content on the main page.
- activityFeed.js
render the list of activity on the main page.
- activityFeedItem.js
render a single post with an activity item.

The screenshot shows a social media interface. At the top, there are navigation tabs for 'Activities', 'Trend', and 'Chat'. On the right, there's a user profile for 'Vincent' with a blue checkmark, and icons for search and notifications. Below the header, the main content area has a title 'Hack UMass' with a black redaction box above it. It includes a timestamp ('November 2nd 2016, 7:28:34 pm'), location ('University of Massachusetts Amherst'), and author ('Vincent Lou'). A large blue button says 'Click to Sign Up'. To the right, it shows '2 people signed up' with a 'View All' link and two small user icons. Below this, a section titled 'Activity Details' features a large image of a hackathon event with people working at tables. Overlaid on the image is the 'HACK UMASS' logo and the text 'The largest hackathon in Pioneer Valley.' and 'October 7-9th @ University of Massachusetts Amherst'. At the bottom of the main content area, there are like and comment counts: '3' and '1'.

2. Activity detail

This folder included components for activity detail pages.

-activity_detail.js

renders the activity detail's content on the main page.

-ad_body.js

renders the detail information on the middle of the screen.

The screenshot shows a comment feed component. At the top, it says 'Wonderful comments (1)'. Below that is a form with a placeholder 'Post your comments' and a 'Post' button. Underneath the form, there is a single comment by 'iufihishf' posted on '11/02/2016' at '11:02 AM' from 'Lou'. The comment text is 'iufihishf'.

-ad_comment.js

renders the comment's content feed on the bottom. And that include comment entry,thread and item.

-ad_commentEntry.js

-ad_commentThread.js

-ad_participates_item.js

2 people signed up [View All](#)

-ad_signeduser.js

render the people that who joined the activity on the right of title.

3. Chat

The screenshot shows a chat application interface. At the top, there are tabs for 'Activities', 'Trend', and 'Chat', with 'Chat' being the active tab. On the far right, there is a user profile for 'Vincent' and a search bar. The main area displays a conversation with 'Test Account2'. The messages are as follows:

- Test Account2: Hello everyone, I'm a test account. (11/03/2016)
- Vincent: what's up (11/03/2016)
- Test Account2: Mr Trump tweeted that the process of selecting his new cabinet and other positions was 'very organised'. (11/03/2016)
- Vincent: cool (11/03/2016)

A text input field at the bottom says 'please type text' and a 'Send' button is visible.

-chat.js

renders the chat's content feed on the main page

This screenshot shows a simplified version of a chat entry interface. It features a text input field with the placeholder 'please type text' and a 'Send' button to its right. The background is light gray, and there are some dark gray vertical bars on the left and right sides.

-chatentry.js

the entry of chat message input box.

Mr Trump tweeted that the process of selecting his new cabinet and other positions was "very organised".

11/03/2016

cool

-chatleftbubble.js

after you send message, it will render the message on the page.

-chatwindow.js

the window of chat.

Friends

Test Account2
cool

-navbody.js

the right part of the page. It shows a list of friend.

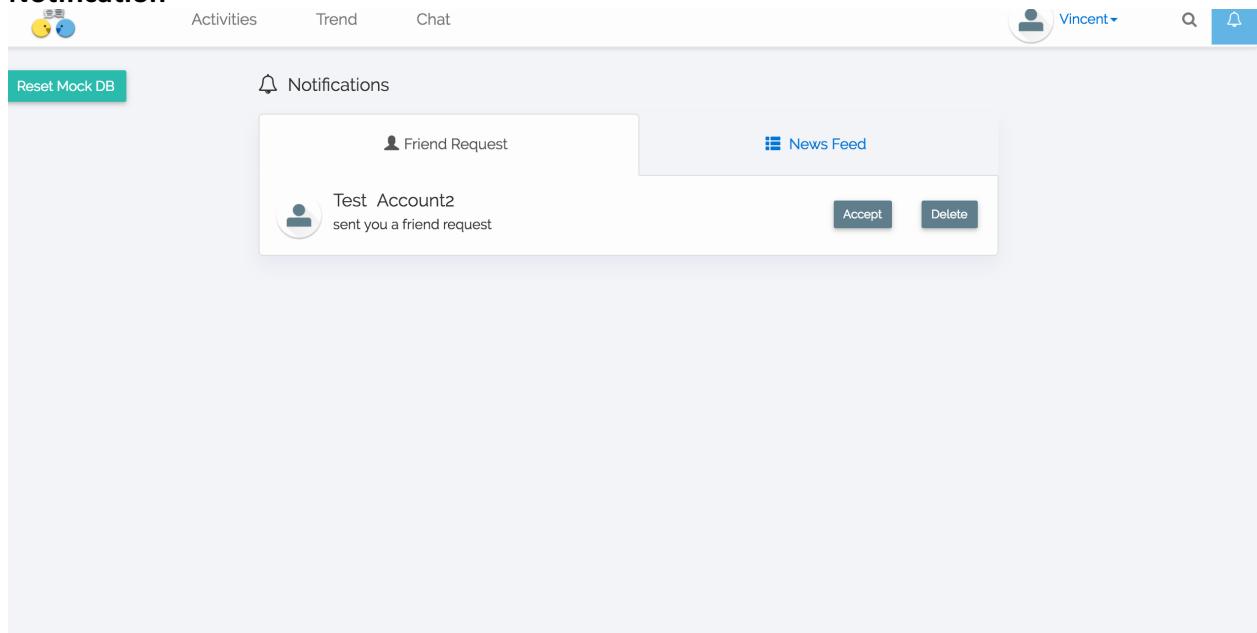

-navchatitem.js

the message of chat.

-navfrienditem.js

-navaheading.js

4. Notification

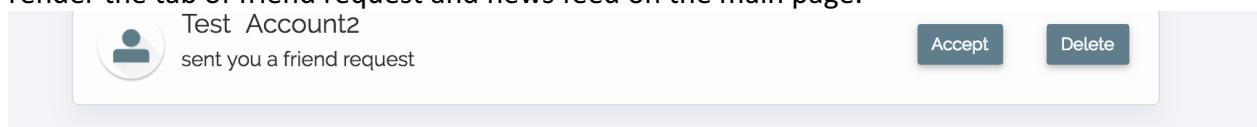

-friendRequest.js

renders the friend request's content on the main page

-navTabs.js

render the tab of friend request and news feed on the main page.

-newsFeed.js

render the news feed's content on the main page

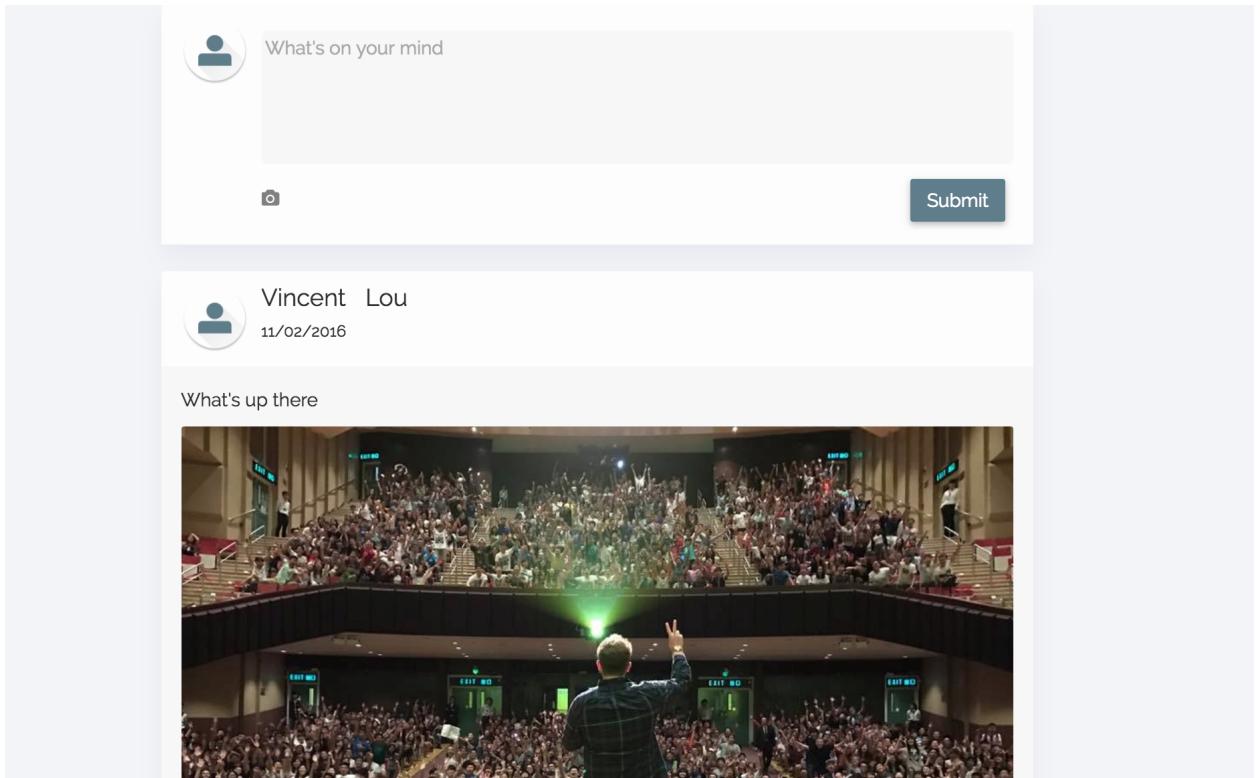

-notification.js

renders the notification's content on the main page

-notificationBody.js

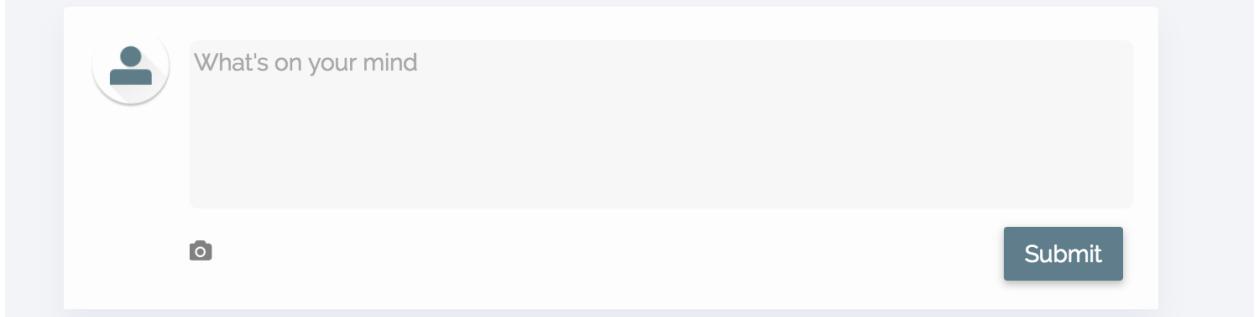

render a single notification content on the main page.

5. Post

-Post.js

renders the post's content on the main page.

-postComment.js

render the input box on the main page, and it included the entry of post comment.

-postCommentEntry.js

6. Post activity

Create Activity

Activity Info

Title

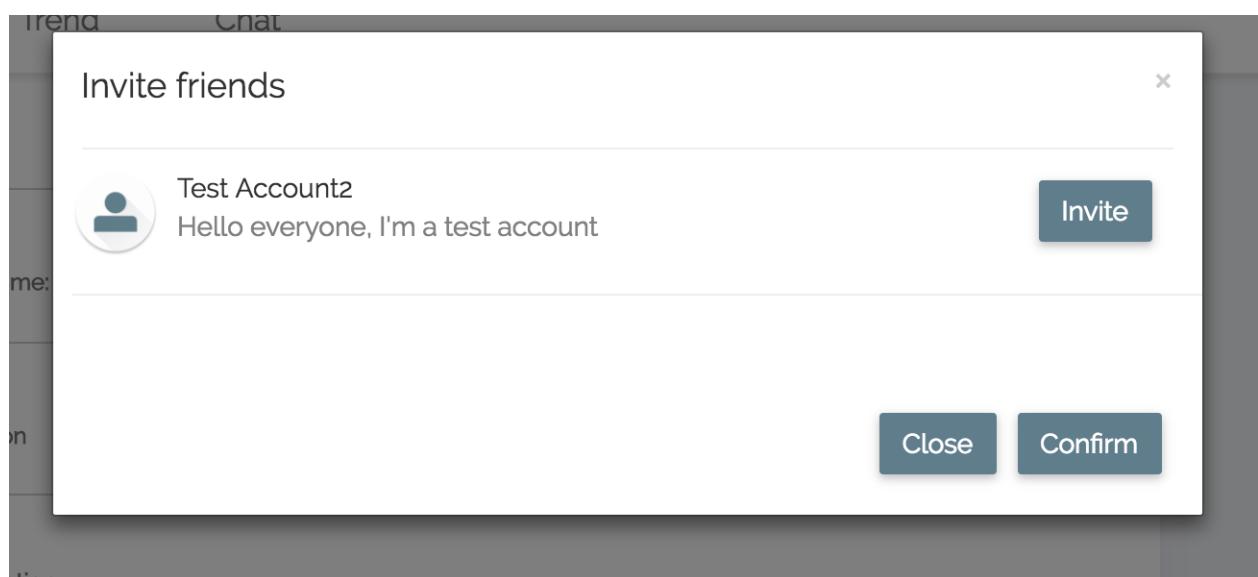

Start Time: MM/DD/YYYY

End Time: MM/DD/YYYY

Description

Details

`-friendItem.js`

renders a single post within invite friend's content. Included get user friend list from database, and show to the screen.

`-postactivity.js`

renders the post activity's content on the main page. The form of post activity.

7. Profile

The screenshot shows a user profile for 'Vincent Lou'. At the top, there's a navigation bar with a teal button labeled 'Mock DB' and a 'Profile' link. Below the navigation is a large circular placeholder for a profile picture. To the right of the placeholder, the name 'Vincent Lou' is displayed, followed by the text 'Hello everyone, I'm a mock user' and a location indicator 'Amherst, MA, USA'. Below this section is a 'Personal Info' card with a progress bar showing 'You've completed 100% of profile.' A secondary card contains 'Email' (upao@umass.edu) and 'Birthday' (5/21/1995). On the right side, there's a 'Recent Activities' sidebar featuring an event titled 'Hack UMass' from 11/02/2016 at 5:31 PM.

-profiles.js

renders the profiles's content on the main page.

This screenshot shows the same user profile for 'Vincent Lou' as the previous one, but it focuses on the 'Personal Info' section. The 'Personal Info' card is prominent, displaying the message 'You've completed 100% of profile.' and the secondary card with 'Email' (upao@umass.edu) and 'Birthday' (5/21/1995).

-profileMainFeed.js

render the main info on the middle of the page.

Personal Info

You've completed 100% of profile.

Email

upao@umass.edu

Birthday

5/21/1995

-searchFeedPartyFeed.js
render a single feed result on the page.
-searchFeedPartyFeedItem.js
render a single party result on the page.

The screenshot shows a list of users under the heading "User". Each user item includes a profile icon, the user's name, a short bio, and a location indicator. The location for all three users is listed as "Amherst, MA, USA".

User	Bio	Location
Vincent Lou	Hello everyone, I'm a mock user	Amherst, MA, USA
Test Account2	Hello everyone, I'm a test account	Amherst, MA, USA
Test Account3	Hello everyone, I'm a test account	Amherst, MA, USA

-searchFeedUserFeed.js
render list of user result on the page.
-searchFeedUserFeedItem.js
render list of user result on the page

9. Setting

The screenshot shows a "Settings" page. It has two main sections: "Personal Info" and "Location". Under "Personal Info", there are fields for Last Name, First Name, Nick Name, and a "About you" text area. On the right side, there are links for "Reset Password" and "Reset Email". Under "Location", there are fields for Country and State.

Personal Info	Location
Last Name	Country
First Name	State
Nick Name	
About you	

-settings.js
renders the setting's content on the main page

10. Component

This folder included some public component for all other folders. We only have navar is public component right now.

-Navbar.js

renders the navbar's content on the main page. The navbar included links to other pages. All pages included navbar components.

Bugs:

- Search result, notification is mock up.
- Post activity cannot invite friends.
- Chat cannot change target, and cannot auto scroll.
- Cannot join activity.
- Can not detect the sponsor is not the current user

Most bugs because we are using mock data right know, and we will try to fix it with real server and database.
